## Summer School Finance

August 3 – August 30, 2017  
in Bonn, Germany

The Summer School Finance is a program specifically designed for students and young professionals worldwide who have a strong interest in the European and international financial markets and want to improve their command of Business English for financial services and banking regulation.

The program takes place from August 3 – August 30, 2017. The application deadline is May 31, 2017. The fee for the fourweek program amounts to 3,200.00 EUR.

If you register by February 28, 2017, you will profit from an early bird discount of 500,00 EUR.

Price includes all courses and excursions, local accommodation, health insurance, public transport, breakfast and all meals during social events. Arrival and departure flights are excluded.

Since 2003 the Hochschule der Sparkassen-Finanzgruppe – University of Applied Sciences – Bonn (University of the Savings Banks Finance Group) offers performance-oriented employees of financial institutions the opportunity to obtain an internationally recognized academic degree in parallel to their vocational training or professional activity. For further information about the undergraduate and graduate degree programs: [www.s-hochschule.de](http://www.s-hochschule.de)

- focus on financial markets
- qualified teachers specialised in banking and finance
- 12 ECTS
- visits to major financial institutions in Frankfurt and Brussels and to Berlin

# Our program in detail

## Course Aims (12 ECTS Credit Points)

This program provides you an overview of the concepts in the European monetary and financial system. The courses deliver a thorough insight into the financial markets and the international banking authorities in Europe and Germany. Additionally, it offers you a great opportunity to experience practices of the banking business and to visit the European Parliament in Brussels, the European Central Bank in Frankfurt and the capital Berlin. Your skills in Business English for financial services and banking regulation will be trained by a native speaker. A strategic business simulation for banks (Bank Management Game) will foster your academic and professional practice.

## Main Subjects

- ✓ English for Financial Services
- ✓ Banking Regulation
- ✓ Strategic Business Simulation for Banks (Bank Management Game)
- ✓ European Banking System
- ✓ European Community
- ✓ Applied International Corporate Finance
- ✓ International Banking Markets

## Course Objectives

- ✓ Comprehensive understanding of financial instruments and markets
- ✓ Overview and understanding of the European market and banking system
- ✓ Knowledge of the European banking authorities and regulations
- ✓ Application of Business English for financial services

## Skills

- ✓ Development of critical reasoning skills
- ✓ Spoken and written English, especially Business English for financial services and banking regulation
- ✓ Intercultural management skills
- ✓ Understanding of global and especially European banking systems in a very practical context

## Learning Outcomes

At the end of the program students will be able to:

- ✓ demonstrate knowledge of fundamental financial systems and banking markets especially in Europe,
- ✓ understand the management of a financial institution in Europe,
- ✓ understand the European banking system and analyse the market in Europe and
- ✓ improve their organisational and personal skills.

All courses are held in English.
